## SWAMI VIVEKANANDA GRAMONNAYAN KENDRA (SVGK)

### Our Vision

গ্রাম ছাড়িয়ে বিশ্ব পানে  
(Beyond the village-across the world)

### Our Mission

Inspired by Swami Vivekananda's life and work our mission is to empower rural Indian population through supplementary education beyond formal class-room-centric curriculum to help in fulfilling their social and economic goals.

### Our Focus

Education

Health

## SVGK-JOURNEY SINCE 2015

- In 2015 Punia Taruntirtha Club started a computer literacy center for the village kids with the help of Aurigene Discovery Technologies Ltd (Bangalore). Aurigene donated 6 used computer and Rs 20000 as start up fund.
- Punia Toruntirtha Club (PTC) started the school with the help of two volunteers and there was 15 students who just touched and felt keyboard first time in their life and slowly learned basic computing
- In 2017 with a CSR grant of 7.5L from Aurigene a decent size hall was built in a sponsored land in the village Punia and few new computers were also added. This time the institute was renamed as Swami Vivekananda Gramonnayan Kendra (SVGK). Due to high demand from surrounding villages within 5km radius SVGK started accommodating more students and also housewives to reach to 150+ learners.
- In 2017 we also built a video conferencing set up and started weekly spoken English classes with ~50 students through online mode using remote teachers.
- In 2018 with another CSR grant of 7.5L from Aurigene PTC built another hall to accommodate a telemedicine center, water and sanitation facility in the complex. A beautiful garden is also built and maintained by volunteers with minimum donation from the patrons of this institute. This center was used frequently in the time of pandemic to help local patients to connect them with remote doctors.
- In 2021 SVGK has been registered as a public trust and acquired all documents like PAN card, 12A, 80G, CSR-1 and NGO Darpan.
- At present SVGK has 375 students enrolled for diploma and basic computer education, 50 students in spoken English, ~50 students in yoga class, 40 students in dance class and 20 students in music class. Students are boys, girls and adults from farmer family and from different community and of mixed age group.
- A library has also been built with the help of old books donated by different donors (<https://svgk.librarika.com/>)
- The institute has applied to be recognized as a rural skill development center to state and central government agencies and the applications are pending approval.

## SVGK Free Computer education

- Present student strength : 375 students
